

Cape St Albans Sunset Champagne Experience

A self-guided sunset champagne experience at Cape St Albans is the perfect way to end a perfect day and take in stunning coastal views and a magical island sunset.

While you're spoilt for choice when it comes to Kangaroo Island sparkling wine, we have a couple of local favourites. The Petiyante from the Islander Vineyard is a crisp and elegant, bottle-fermented champagne style Chardonnay/Pinot Noir, or try the Sparkling Cuvee NV and Sparkling Shiraz from Bay of Shoals vineyards if you're exploring the Kingscote region during the day and have a chance to visit the winery.

Grab a couple of champagne glasses, a bottle of your favourite sparkling, the KI honey popcorn (can be purchased from several outlets in Penneshaw) for an unusual kind of pairing and roll your table and stools outside onto the deck. For an extra sensory experience, pack a few things and head down to Kona Beach. Don't forget to bring your phone to take some Instagram pics, and a torch to safely make your way back to your CABN X.

As the sun gently descends towards the horizon, feel the sand between your toes, smell the salty air and feel a gentle breeze as you take your first sip.

As you gaze out towards the horizon, the sky begins its transformation into a mesmerizing colour while casting a golden glow upon the world bathing the surroundings into warm, ethereal light. The clouds that dot the sky are transformed into strokes of cotton candy, their edges kissed by shades of orange, pink, and purple.

As you take another sip, the tiny effervescent bubbles dance on your tongue as you bite into the crunchy honey popcorn that will awaken your taste buds and release a symphony of flavours that will add a touch of liveliness to the experience.

The sound of the sea is a constant companion, its rhythmic waves crashing against the shore in a soothing melody. The distant cries of seagulls add a playful layer to the soundscape. As the sun sinks lower, its warm rays intensify, casting elongated shadows that paint the landscape in dramatic contrast. The glittering path of light on the water leads directly to the sun, creating a captivating reflection that sparkles like a million diamonds.

The Cape St Albans Kona Beach champagne sunset experience is a must do sensory journey, where sight, sound, smell, and touch converge to create a profound connection with nature. It's a reminder of the vastness and majesty of the world, and a gentle invitation to relax, rediscover and reconnect.
